## **SECTION II** **SPECIFIC CONDITIONS AND INSTRUCTIONS FOR THIS PROPOSAL**

### **A. SCOPE AND BACKGROUND:**

The City of Berwyn Police Department is seeking qualified vendors due to undertaking the critical task of replacing its aging rooftop generator, which has served the facility since approximately 2001. This generator has shown signs of declining reliability, prompting concerns regarding its ability to provide uninterrupted power during emergencies. As the backbone of the department's backup power system, the generator is essential for maintaining operational continuity, especially during power outages. In light of its importance, the department recognizes the need to ensure that the new generator meets the evolving demands of modern emergency services while fitting within the existing curb space allocated to the old unit.

To facilitate this replacement, the City of Berwyn Police Department is actively seeking qualified vendors who have a proven track record in the installation and maintenance of rooftop generators. The selected vendors must demonstrate expertise in working within confined spaces and adhering to local building codes. Additionally, they should be equipped to manage the logistical challenges of removing the existing generator and integrating the new unit into the designated curb space without disrupting the operations of the police department. The goal is to ensure a smooth transition with minimal downtime, allowing the department to continue serving the community effectively.

The scope of work for this project includes, but is not limited to, the following:

  - **Replacement Unit:**
  - **OLD UNIT – Olympian, Model G60F1 – Natural Gas Unit**
